ACCREDITED

ARTEMIS
HOSPITALS

Multi-specialty tertiary & quaternary care hospital, Gurugram — JCI & NABH accredited, among India's leading private healthcare institutions. **Now running its entire clinical and operational workflow on KareXpert's unified platform.**

“

KareXpert enabled us to standardize workflows across specialties while improving clinician productivity and patient experience.

Dr. Devlina Chakravarti — Managing Director, Artemis Hospitals

BEFORE: KEY CHALLENGES

- 01 17+ Year-Old Legacy HIS**
Zero customization — every change needed vendor intervention.
- 02 3–5 Min Print TAT per Encounter**
Discharge services added only at the billing desk.
- 03 4+ Disconnected Apps**
Feedback, doctor, and pharmacy apps — no single source of truth.
- 04 Fragmented EMR**
No unified patient timeline across departments.
- 05 Manual Discharge Summaries**
15–20 minutes per discharge, with a high error rate.

TRANSFORMATION WITH KAREXPRT

- 01 60-Day Configurable Release Cycles**
No-code rule engine — the hospital controls its own workflows.
- 02 Discharge Redesigned at Point of Care**
Services captured in real time by each provider.
- 03 Single Application, Single Login**
Unified data layer — zero middleware.
- 04 Unified EMR/EHR Across 55 Specialties**
One longitudinal patient record with structured clinical documents.
- 05 Auto-Compiled Discharge Summaries**
Pulled from orders, notes & investigations — reviewed, not rewritten.

Business Impact Delivered

99%

Reduction in Print TAT
3–5 min → 1 sec per encounter

100%

Discharge Billing Shift
Data entry → audit-only workflow

75%

App Consolidation
4+ apps → 1 unified platform

~15%

Revenue Leakage Plugged
Real-time charge capture at point of care

60%

Faster Discharge Cycle
Clinical + billing run in parallel

80%

Drop in Documentation Time
Auto-completed vs. manual summaries

Business Value

Better for Patients

Faster discharge, shorter wait times.

Better for Clinicians

More time for care, less on documentation.

Better for Operations

One unified platform, zero middleware.

Better for Finance

Higher revenue capture, less leakage.

Better for Leadership

Real-time visibility into every department.

Future Ready

Scalable, configurable, AI-ready platform.
